ZERBINI TECNICI e TAPPETI ASCIUGA-PASSI

Gli zerbini tecnici e i tappeti asciuga-passi per l'ingresso danno un contributo positivo al mantenimento del valore di un edificio.

La sporcizia e l'umidità sono tenute lontane dai pavimenti interni come parquet, pietra naturale o moquette.

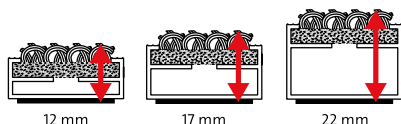

Il design flessibile consente agli architetti di realizzare la loro visione senza dover scendere a compromessi sulla funzione. Possono essere personalizzati con loghi o colorazioni differenti.
